CLASS STANDING INFORMATION (THROUGH Fall 2011)

The Law Center only provides individual class standings upon graduation. However, at the conclusion of each Fall/Spring semester a percentile ranking is published based on entering class year so that individual students may determine their general position within the group of students with whom they entered the Law Center (transfer students should check with the Office of Student Services for their class year).

Percentiles based on 5% increments down to the 50th percentile, and 10% increments thereafter are published. In addition, the top ten students of each entering class are notified by letter of their individual class rank.

Individual graduating class rankings for the 2009 Entering Class will be available upon request after the graduating class is finalized in September 2012. The graduating class is composed of the December 2011 and the May and August 2012 graduates.

Percentile rankings through the Fall 2011 semester are as follows:
